OBJECTIVE

Entry-level Full Stack (MERN) Developer with practical experience in React, Node.js, REST APIs, JWT authentication, and deployed web applications. Eager to apply strong problem-solving skills and full-stack fundamentals in a growth-focused engineering role.

EDUCATION

Bachelor of Computer Applications, Bangalore University

Aug 2023 - Jun 2026

- CGPA: 8.1/10
- Relevant Coursework: Database Management Systems, Software Engineering, Web Technologies, Data Structures

SKILLS

Languages	JavaScript (ES6+), HTML5, CSS3
Frontend	React.js, Next.js, Tailwind CSS, shadcn/ui
Backend	Node.js, Express.js, REST API Design, JWT Authentication
Database	MongoDB, Mongoose, PostgreSQL, Supabase
Tools & Platforms	Git, GitHub, Vercel, Postman, VS Code, Google OAuth
Soft Skills	Ownership, Attention to Detail, Problem-Solving, Collaboration

EXPERIENCE

MERN Stack Developer Intern

Apr 2026 - May 2026

Codec Technologies

Remote

- Built and deployed a task management application using the MongoDB, Express.js, React.js, and Node.js (MERN) stack, implementing JWT-based authentication and full CRUD operations.
- Completed 100% of the structured, 1-month remote MERN Stack Developer internship curriculum, covering REST API design, collaborative Git/GitHub workflows, and responsive UI development.

PROJECTS

BingeStudy – AI-Powered Collaborative Study Platform

[GitHub](#) | [Live Demo](#)

Next.js 14, Tailwind CSS, Supabase (PostgreSQL, Auth, Storage, Realtime), Google Gemini 2.5 Flash API

- Built a full-stack platform enabling students to create private study groups via unique invite codes, share multi-format resources (PDF, images, audio, docs, URLs), and communicate in real time.
- Engineered secure authentication (Google OAuth + email/password) and role-based access control with PostgreSQL Row-Level Security; resolved a critical infinite-recursion RLS bug using a `SECURITY DEFINER` function.
- Integrated Google Gemini 2.5 Flash to power an in-app AI study assistant that answers academic questions contextually within group chats.
- Designed 10+ REST API routes covering authentication, group management, messaging, file uploads, and AI chat; deployed on Vercel.
- Executed structured testing (15 test cases, 100% pass rate) across auth, messaging, file sharing, and AI modules.
